Majid Seyedmiri

FRONT END DEVELOPER

Profile

With over **13 years of hands-on experience** in web development and front-end design, I bring deep expertise in crafting modern, responsive, and high-performing websites. My journey began with solid foundations in **HTML5, CSS3, JavaScript, jQuery, and PHP,** evolving into a passion for building dynamic applications with ReactJS and Next.js over the last few years.

I've collaborated with major companies across industries as a **Front-End Developer, SEO Specialist, Digital Marketer, and WordPress Expert.** For the past 3+ years, I've been focused on **React and Next.js**, combining my technical skills with a sharp eye for design and performance. I'm also experienced in developing custom WordPress plugins, particularly tailored for **Next.js integrations**, bridging headless and traditional CMS capabilities.

- 13+ years of Web & Front-End Development
- 3+ years of ReactJS / Next.js
- 1+ year of TypeScript
- 8+ years of WordPress Development
- 7+ years of SEO & Digital Marketing
- Custom WordPress Plugin Development

Employment History

- **Senior Front-End Developer, Wordpress developer – Insanüstü - Cnili Company, Tehran**

MAY 2021 — PRESENT

- I had the opportunity to work with Insanüstü, a creative tech company based in Istanbul, where I contributed to a wide range of development projects as part of a talented and collaborative team.
- **React Development:** Worked on high-performance web apps such as app.rwsolutions.com and app.euexpress.it, delivering robust front-end functionality within agile environments.
- **Team-as-a-Service Collaboration:** Partnered with major clients through Insanüstü's TaaS model, building scalable solutions for businesses across Europe and the US.
- **Custom WordPress Plugin Development:** Led a 6-month plugin development project for a US-based company, delivering tailored functionality aligned with business goals.
- **Themeforest Theme Development:** I developed a dynamic theme for Themeforest called Nebula. This project involved creating custom widgets for WordPress. Everything is dynamic and user-friendly.

- **User Panel and Creative Website Design:** My expertise extends to designing user panels with HTML and CSS to deliver intuitive and visually appealing user experiences. Additionally, I've played a key role in crafting creative websites, benefiting both our company and esteemed clients. Some notable examples include:
    - https://roundium.com/
    - https://www.insanustu.co/
    - https://limancare.com/
    - https://rewardue.com/

- **SEO Expertise:** I provided SEO services and consultation both for the company's internal needs and for our clients, aiming to boost online visibility and rankings.

During my tenure at Insanüstü, I'm particularly proud of the achievements we made. Notably, our work led to a significant improvement in Google rankings for the site operating in Iran, resulting in a substantial influx of clients through organic search results. Furthermore, the company's website design and SEO team experienced remarkable growth and expansion following my contributions.

My time at Insanüstü was marked by impactful projects, successful SEO strategies, and the continual growth of our web design and SEO teams.

Senior Front-End Developer – Twelfth Dream, Vancouver (Remote)

2020 — 2021

I had the privilege of working with Twelfth Dream, a dynamic company headquartered in Vancouver, while contributing remotely to their versatile team. During my tenure, I undertook several key responsibilities:

- **Front End Developer:** I had the opportunity to design user panels using React, collaborating closely with my team to ensure seamless and user-friendly experiences for our customers. For example:
    - https://www.upperly.net/
    - https://portal.goodspaceplan.com/login
- **Team Management and Code Review:** I played a key role in developing React-based applications, ensuring they met high-quality code standards and client expectations. I also took on leadership responsibilities, managing the team, promoting collaboration, and conducting thorough code reviews to maintain quality code.
- **Creative Website Design** While my primary role revolved around front-end development, I made significant contributions to various other areas within the company. Notably, I specialized in designing websites using HTML, CSS, and PHP (WordPress) to create unique templates. Below, I've listed some specific examples of my work:
    - https://charlottesnewbornacademy.com/
    - https://mahart.academy/

- https://twelfthdream.com/
- https://atlanticdreamjobs.com/
- https://goodspaceplan.com/
- https://comfydone.com/
- These experiences have allowed me to diversify my skill set and contribute effectively to a range of projects beyond my core expertise.
